

Pre-authorizations

We offer pre-authorization* for patients. Our dedicated insurance specialists are experts in obtaining appropriate authorization for most major insurance companies. If you have questions about a plan, call us at **800.743.4132**.

Please include the following with your order and fax to 207.883.6370 for Marshwood Imaging Center, Center for Diagnostic Imaging of Augusta and Center for Diagnostic Imaging at Redington Fairview General Hospital. For CDI Brunswick please fax to 207.721.8125.

- 1 INSURANCE NAME AND ID/POLICY NUMBER**
This helps us quickly contact the correct insurance plan and obtain a timely authorization for the patient's exam.
- 2 CURRENT CLINICAL CHART NOTES⁺**
Having chart notes available to submit with the request for authorization helps move the process along. Providing the information below by fax, phone or e-mail will help expedite pre-authorization:
 - Current signs and physical exam findings
 - Any past diagnostic imaging related to the body part being imaged (reports and images)
 - Physical therapy and how long (if applicable)
 - Any medications the patient is taking
 - What is the doctor looking for or trying to rule out with the requested study?

*STAT Authorizations: Each insurance company defines the parameters of STAT differently. This may vary from 4 to 48 hours, depending on the plan. If we have an agreement to obtain your pre-authorizations but you have a STAT request, you will be responsible to obtain the pre-auth in that instance.

- 3 DIAGNOSIS**
An ICD-10 diagnosis code is preferred by most insurance companies. A general diagnosis, such as knee pain or other symptoms, is useful if the ICD-10 is not available. "Rule-outs" are not accepted as a primary diagnosis.

We do not pre-authorize PET-CT scans or MR Breast.

Call us if you have any questions, and thank you for allowing us to serve you and your patients!
